

University of  
Cambridge

# Women *in* Engineering

Wednesday 5 June 2013

1pm until 2pm

Boardroom, Baker  
Building, Department of  
Engineering,

## ‘Early Career Development for Research Staff’

**A talk by Dr Shery Huang**

*Lunch will be provided followed by  
a 20 minute talk and then  
questions and a networking  
opportunity*

To confirm attendance, please  
e-mail [wi-eng@eng.cam.ac.uk](mailto:wi-eng@eng.cam.ac.uk)

**Shery Huang** obtained her MEng in Materials Science and Engineering from Imperial College London. With her curiosity in science, she decided not to pursue job offers in the oil & gas industry, and instead entered into a PhD program in Physics in Cambridge. After completing her PhD studies, she was awarded an Oppenheimer Research Fellowship and a Homerton College Fellowship. Her current research employs Nanotechnology in medicine, for example, to improve tissue implants, and to gain better understanding in disease mechanisms such as cancer metastasis. She is looking forward to joining the Engineering Department in August, when she will take up post as a University Lecturer in Bioengineering.
